Michael Capponi
Global Empowerment Mission
Miami, Florida

Dear Mr. Capponi,

RE: Sherlin C. Bootle High School Needs

In reference to the above-named caption, know that we appreciate the involvement of Global Empowerment Mission and their partners with the rebuilding of S. C. Bootle Secondary School.

Our students in grades seven (7) to twelve (12) are virtually enrolled and are awaiting to start in person classroom learning once Covid restrictions are lifted.

As they rely on technology daily, the need for computers is ever present and we appreciate the possibility of your donors assisting with this.

Our enrollment at this present time is two hundred, eight students (208). We are presently in need of eighty (80) laptops for students and twenty (20) laptops for teachers.

As the principal of this institution, I would be responsible along with GEM's team for the distribution of the Technological devices. Students and parents will be made aware that these are to be returned to the school at the end of the academic school year, so that they could be redistributed the following year.

We are also requesting assistance with the refurbishing of our Science Lab and Home Economic Lab. If this request is not too much, we are also in need of a heavy-duty photo copier, two (2) promethean board, two (2) water coolers and two (2) microwave ovens.

Any assistance rendered would be greatly appreciated.

Sincerely yours,

Chantell R. Cox (Mrs.)
Principal
