August 24, 2021

United States Coast Guard

Let this letter serve as confirmation that Global Empowerment Mission, also referred to as GEM, is working in conjunction with the Government of Haiti to supply support and much needed earthquake relief to the South of Haiti, after the devastating 7.2 magnitude earthquake that occurred on August 14, 2021.

Under the leadership of its President, Michael Capponi, GEM will be shipping emergency aid to the Port of Miragoane, Haiti starting on August 24, 2021. GEM will continue its relief efforts focused on Haiti through the months of September and October 2021.

However you can help facilitate this feat would be much appreciated. Your continuous support during Haiti's hardest hit moments is invaluable.

Please feel free to contact me with any questions, to ensure a smooth transition of much needed aid to those affected the most on the Island.

Sincerely,

Stéphane Gilles  
Consul General  
Consulate General of the Republic of Haiti in Miami
